

Q5id Proven Identity App

Verification Process Step-by-step:

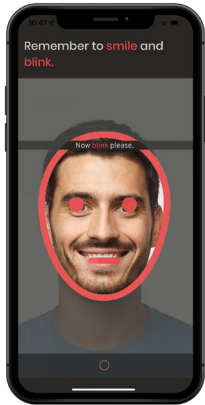

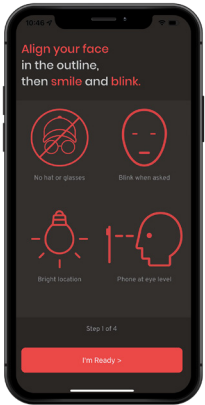

Step 1

Download the Q5id Proven Identity app from the Apple or Google Play Store.

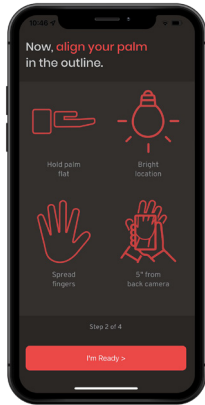

Step 2

Launch app and click "Create new account."

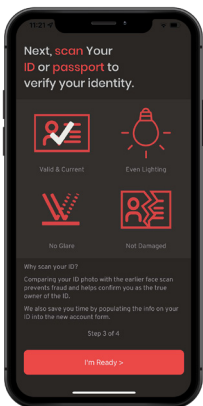

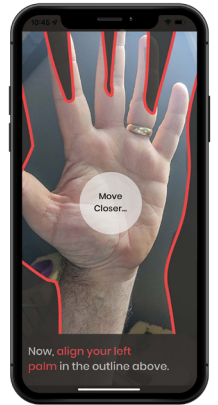

Step 3

Snap a selfie. Center your face in the red oval, once centered be sure to smile and blink!

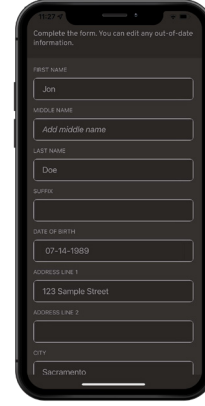

Step 4

Take pictures of both palms. Starting with your right hand, face palm up towards the sky, place your phone over palm and center in red lines. Repeat with left hand!

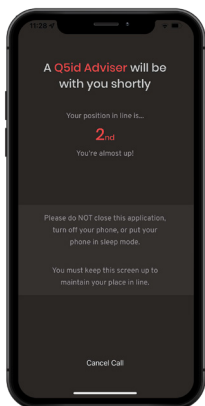

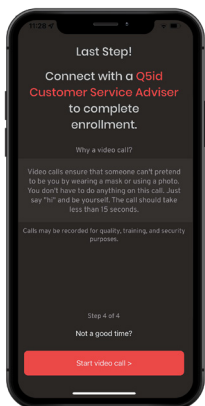

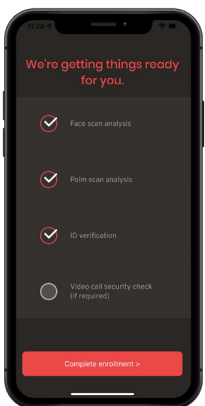

Step 5

Scan a government-issued ID. Place ID face up, making sure there is no glare. Fill rectangle boundary and tap the screen. Repeat with back of ID.

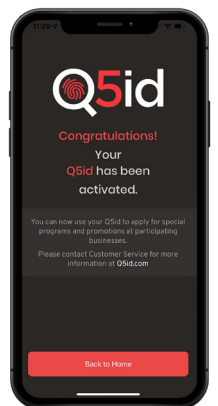

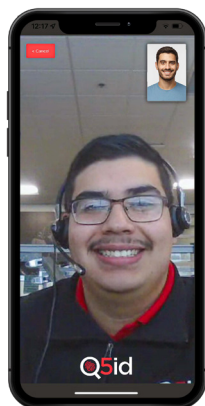

Step 6

Fill in additional fields that were not auto-filled from ID scan. Double-check that all information is correct.

Step 7

Now that you have uploaded your personal information we require a 30 second video call with one of our enrollment service specialists. This is an added security measure to make sure that you physically match the information your uploaded.

All done!

You now have a Q5id proven identity!
